Okay thanks. I don't have the old electronic version so I'll have to use the white out method. I'll mail the replacement page 2 and the Application for Mineral Mine Plan Revision or Amendment page to you.

Thanks,

Jason

Yes, I think that is what we envisioned. The old page 2 is fine. We had hoped that you would still have an electronic version of your Notice of Intent and you could just redo page 2 and submit it. If you don't have an electronic version, you could even white out the old information and update it with the new. We just need to be able to go the old Notice of intent in our files, pull out the old page 2 and replace it with the revised version that you will be submitting. Thanks.

Hi Daron,

Indeed, we need to update the mailing address just so any correspondence will get routed in a more timely fashion. I noticed the information requested on page 2 is different and our location description is much longer than the default of the .pdf MR-LMO on DOGM's website. Would it work to just make the changes directly on the old MR-LMO page 2 as attached? If not, could you send me a Word or WordPerfect MR-LMO file?

Thanks,

Jason Haddock

Hi Jason;

I guess you are interested in getting the address for Redmond changed to Heber city. Although our people sometimes make it sound difficult, it is really fairly simple. We just want to make sure that the information we have in your Notice of Intent is accurate. To do this you should submit the revised page of the Notice of Intent showing the changes you intend to make (address change) and our amendment form that indicates that you are replacing page 2 of your Notice of Intent with a new page. This provides for someone with signatory authority to authorize the change. I have attached copies of page 2 of your notice of intent and an amendment form for your convenience. For some reason we had two different versions of your page 2 (you can see why we want to have these changes documented and approved) so you will need to use the appropriate one and send it in. We would then replace the page in your notice of intent and the old page would be archived. Formatting can present some problems when replacing pages if the paragraphs are expanded, but I wouldn't expect any issues with just the address change. Please call if you have any questions.

Best Wishes,
Daron
